Objective

To design and develop AI-powered applications using Machine Learning, Deep Learning, and Python while contributing to innovative projects.

Education

FRANCIS XAVIER ENGINEERING COLLEGE

B.Tech - Information Technology, Specialized in Data Science
CGPA - 9.200

TIRUNELVELI
(June 2023 - May 2027)

OUR OWN MODERN MATRIC HIGHER SECONDARY SCHOOL

HigherSecondaryEducation - 82%

(June 2022 - April 2023)

Technical Skills

Machine Learning	TensorFlow, Scikit-learn
Programming	Python, C
Frontend	HTML, CSS, JavaScript, React.js, Next.js
Backend	Node.js, Express.js, Java Spring Boot
Database & Querying	MongoDB, MySQL, Supabase
Core Competencies	Machine Learning, Deep Learning, Full Stack Development (MERN), API Development & Integration

Soft Skills

- Time Management
- Adaptability
- Quick Learner
- Communication

Experience

INTERNSHIP - Prodigy Infotech

- Completed a Certified Web Developer Internship at Prodigy InfoTech, developing and enhancing responsive web applications using HTML, CSS, and JavaScript, with REST API integration.
- Completed a Certified Full Stack Developer Internship at Prodigy InfoTech, where I developed and enhanced scalable web applications using MERN stack technologies.

INTERNSHIP - Wizbees technologies Pvt. Ltd

- Gained hands-on experience in developing interactive and user-friendly web interfaces during internship at WizBees Technologies Pvt. Ltd.

Projects

- **VeriFrame** (ICP + Deep Learning): Deepfake detection platform with CNN spatial analysis, RNN temporal checks, and attention-based anomaly flagging; includes frame heatmaps, video history, and PDF reports.
- **VisionBoard** (Customized AI + Firebase): Built an AI-powered strategy platform using Gemini API and Firebase for intelligent content generation.
- **Eco-Vision**: Developed an AI-based waste tracking and carbon monitoring system using Next.js and AI integration.
- **Communication & E-Commerce Platforms** (MERN + Supabase): Built Instagram & Telegram-inspired apps and full-stack marketplace/course platforms with real-time features, authentication, and admin control.
- **Food Stall Management** (React, Spring Boot, MySQL): Full-stack app with role-based UI and order management.

CERTIFICATIONS

- Web Development and Java Full-stack development
- Swayam NPTEL - "The Joy of Computing using Python", "Introduction to Industry 4.0 and Industrial IOT"

ACHIEVEMENTS

- Certified Internship Completion with LoR at Prodigy Info Tech for Web Development and Full-stack development
- Completed Full Stack Web Development Bootcamp and Java SpringBoot bootcamp
